## Production Introduction

Thank you for purchasing our Bluetooth speaker system. This product supports Bluetooth 2.1+EDR, a greater range of mobile phones, smart phones, tablets, laptops and various other Bluetooth enabled devices. Our modern design users the latest in electronic technology to produce a high end music experience and still keep its ultimate portable features with its built-in rechargeable lithium battery and remote control.

Please read the following instructions carefully before operating the UFO. Keep them safe for future reference.

1. Play/Pause	2. Volume Up
3. Volume Down	4. Indicate Light
5. Power On/Off	6. Mini USB DC In
7. AUX in Jack	8. Speaker Unit

Product Features

● Graceful sound quality, petty body but great sound volume.

● Decorous& fashionable facade.

● The latest blue-tooth technology, wide be used.

● Control the music playing between speaker and mobile phone or other equipments with Bluetooth.

● Support lots of sound sources input.

● USB power supply or power adapter, built-in rechargeable lithium battery, very easy to use.

● Support answer calling.

Technical Parameters

● Mono Output

● Power Output：3W

● Speaker Unit：2 " 3Ω 3W

● Frequency Response：100Hz～18KHz

● S/N Ratio：≥70dB

● Bluetooth Standard: 2.1+EDR

● Bluetooth signal power：CLASS II

● Supports: A2DP，AVRCP，HF and etc.

- Signal Distance：8 - 10M
- Power： DC5V 500mA
- Built-in Battery: 3.7V 400mAH, rechargeable lithium battery.
- Playing Time: 7 hours (middle volume)
- Product Size (D*H): 64X67 mm
- Weight: 173 g

How to Operate.

Charge Up

Connect the supplied power 5V 500mA, indicate light red, it is charging up, till light put out, finish.

※ Charge up in OFF situation, 3 hours can be full of; if in ON/WORKING situation, more or less 5 hours.

※ Please charge up before use this product.

ON/OFF

Turn On：Push the button to ON position, indicate light is shining.

　※ There will be different color shine on the indicate light if this product start Bluetooth mode or AUX in mode. Please check below instruction：

Activate Mode Change

　This product support Bluetooth mode and AUX in mode, and can change to each other easy.

　If the 3.5 mm jack of Audio cable insert the speaker, AUX mode is acquiescent; if not, Bluetooth mode is starting.

Bluetooth Mode

Turn on the speaker in Bluetooth mode, indicate light coruscate between blue and green,

・Pair： To pair the speaker with a Bluetooth device, the speaker is ready to be paired with when you turn on it and keeping 6-8 seconds. Activate the Bluetooth on your mobile phone or other devices you want to pair. The name to be searched is T3. Once found, select and point it, you get it when the indicate light coruscate slowly; (If pass word is required, input the access code "0000" to complete the pairing.)

・Operation：After pairing is completed, you will be able to play music from you Bluetooth player wirelessly to the speaker. You will be able to control the functions with the PLAY/PAUSE, VOLUME UP/DOWN buttons, and also be able to answer/refuse your calling.

・Connecting device memory: When you turn on the speaker in Bluetooth mode, it will connect with the device which work with it last time automatically. If the device is out of effective range, pair procedure start.

Note: 1. Bluetooth mode will disconnect automatically if the speaker has not been used for a long period time. The speaker will revert to sleep mode so you would need to pair the two devices again.

2、There may find there are some differences in between in setup with some Bluetooth devices. We advise you read these instructions carefully before pairing starts.

AUX Input Mode:

The indication light will show a green color when an AUX cable is connected to the speaker. This will auto set the speaker to AUX Input Mode. When the speaker is used in AUX mode you will only be able to control the music Volume Up/Down from the speaker.

Low Voltage Warning

● The indicator light will flash green when the power is too low, and also some noise. Please re-charge the speaker. If re-charging is not started, the speaker will switch off automatically once there is no battery life to power the speaker.
